Student Engagement and Retention Tool

The Dream Team

Brenden Jones,
& Alex Northouse

Promises and Final Features

Promises:

- Chatbot
  - Interacts with Students
  - "Smart"

- Dashboard to access the chatbot and do what it can, in case someone doesn't want to interact with the chatbot.

Iteration 5:

- Dashboard based webpage.
  - Students can enroll in courses and view questions submitted by Professors.
  - Professors can create courses, questions, and syllabi. They can also manage all of the above.

- MySQL database

- PHPUnit Testing

Missing and New Features

Missing Features:

- The chatbot

New Features:

- The view questions page on students.
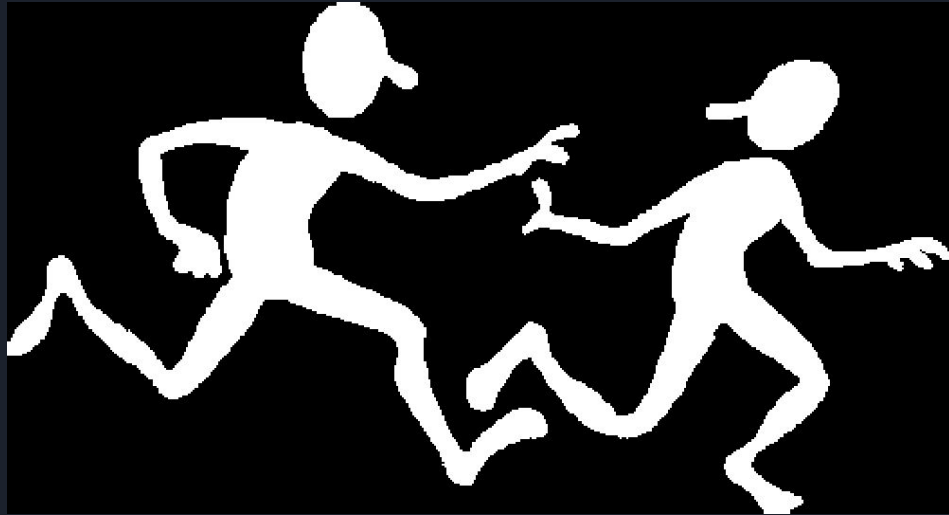

Final Client Meeting

How: Zoom
When: Wednesday, Noon

Feedback:
- He said he'd give us a solid B- in terms of the overall project.
- He then gave us individual positive critiques and advice on the project, how it went, and where we should consider going from here.
- He was okay with how the project turned out, and was very happy with the experiences we got as partners.

Transfer

He requested us transfer it to him by giving the repositories to a StudyTable github account (details forthcoming).

Final Retrospective
